What if you could *stop printing* and *sign* all of your documents *electronically?*

ECMNOW!

John W. Smith

There's a BETTER way!

Skip the tedious steps of printing, signing, and faxing with
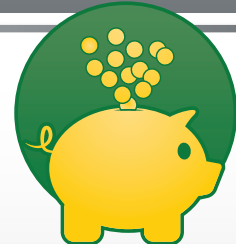

ELECTRONIC SIGNATURES

Simply upload your documents and sign them electronically with a few clicks of your mouse!

Boost
Efficiency
by removing the need to print paper documents.

Ensure
Control
by validating electronic signatures have not been altered.

Save
Money
by eliminating the costs associated with printing and transporting paper.

Is it legal?
YES

The *E-Sign Act*, established in 2000, says if there is a law that requires you to provide information in writing, you can do so electronically.

More than *15 million* people have electronically signed more than *120 million* documents in *188 countries*. *- TheNextWeb*

The average cost of a wasted page is six cents. For a company with 500 employees, that means *$42,000* a year on wasted prints! *- msmvps.com*

Electronic signatures are popular. By the end of the decade, businesses will spend more than *$5 billion* on electronic signatures. *- PCWorld*

Improve your *productivity*,
enhance *security*, and save *money* with **ECMNOW!**
