

PaperVision® Forms Magic™ Technology

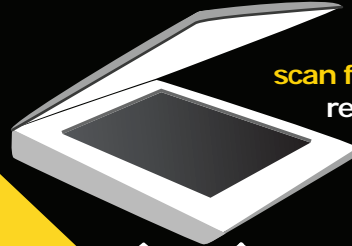

What if you could “magically” **classify** forms and **extract** the data you need?

Eliminate manual steps

22% of an employee's time is spent on **repetitive tasks** like manual data entry.

- Cognizant, 2019

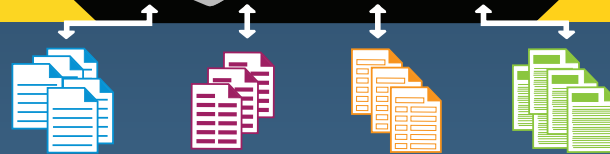

55% of businesses **scan forms**, and **manually re-key the data** as part of their workflow.

- AIIM, 2016

Automation of knowledge work will have an economic impact of **\$5-\$7 trillion** by 2025.

- McKinsey Digital, 2019

The PaperVision® Forms Magic technology automatically classifies documents into types and extracts critical data from over 250 different file types.

Why do businesses want automatic data extraction?

Reduces manual mistakes

It's inevitable... humans make mistakes. But automatic data extraction gets it right every time.

Streamlines business processes

Automatically extract critical data, populate fields, and send data to other applications.

Saves you money

Automation reduces manual effort and administrative costs saving businesses on operating costs.

How does Forms Magic Technology benefit businesses?

"You can't automate something you can't read or look at. **PaperVision® Forms Magic** enabled us to access the critical information we need. Being able to extract the data with artificial intelligence has enabled us to automate our entire business process, **saving more than \$3 million annually.**"

-Troy Brown,
Director of Innovation and Tools
Arvato Bertelsmann
