

Gnomon Enters the Digital Office Age with ECMNOW!

Being a school that teaches students how to maximize technology, Gnomon decided to digitize their administrative processes as well. By using ImageSilo® (rebranded as RADIX™ by Imagetek), PaperVision® E-Forms, and EMPOWER since early in 2015, they've been able to make the record-keeping process much easier by keeping all student records together from admissions to graduation.

- Increases efficiency by finding records up to **120 times faster**
- Can now control who can view **over 2,000** student records
- Saves over **\$100,000 every year** in labor
- Implementation and training took **less than 6 hours**

EFFICIENCY **NOW**

"PaperVision E-Forms makes all of our forms processes easier. The forms are now filled out more completely and we don't have to keep asking for more information from the students. We like how we can store many different document types on ImageSilo. Organization is key for us, and this makes it simple. It's really nice!"
