

# NEdocs Builds Strong and Lasting Business with *ECMNOW!*

A Digitech Systems reseller since 1997, NEdocs required a solution that would benefit their internal document scanning and management needs, and a partner with a robust product suite. They met these goals by implementing and reselling PaperVision® Capture, PaperVision® Enterprise, PaperFlow™, and ImageSilo®.

- Saw profits **within one month** of becoming a Digitech Systems reseller, and improved internal processes
- Can provide **HIPAA** and **201 CMR-17** compliant services, along with other regulatory needs across many industries
- Attributes **95% of scanning revenue** to utilizing PaperVision Capture and selling ImageSilo
- Completes training for PaperVision Enterprise and ImageSilo customers in **just one hour**

*"We can attribute such a high volume of success directly to Digitech Systems, because we do not offer multiple ECM and scanning products like many other document solution providers. Instead, we have set our focus on a product line that we truly believe in and support unconditionally. By providing us with a suite of industry-leading tools, Digitech Systems outfitted New England Document Systems for immediate and continued success."*
