

PaperVision® Capture

Think your paper is **under control?**

Employees spend 30-40% of their time looking for information locked in filing cabinets.

- Environmental Paper Network, 2019

Paper consumption grows by **22%** each year for an average business.

- Environmental Paper Network, 2019

Companies in the US spend over **\$120 billion** per year on printed documents.

- Environmental Paper Network, 2019

Do you need a capture system as **unique as you?**

PaperVision® Capture helps you collect the data you need, no matter the file type, where it comes from, or how much the amount of information you manage increases over time.

Can your capture system grow as your data grows?

By **2025**, the global datasphere is expected to exceed **127 zettabytes!**

- IDC, 2018

Capture systems can manage any amount of information.

82% of organizations see the **rising volume of information** as a significant **problem**.

- AIIM, 2019

How does PaperVision® Capture help businesses?

Simplifies information sharing to streamline processes and improve collaboration.

Increases your information security to enable compliance with industry regulations.

Saves you money on costly physical storage by electronically storing all your business information.

“79% of organizations realize they must transform into a true digital business in order to survive.” -AIIM, 2019

Easily digitize your information with the award-winning PaperVision® Capture

“Using PaperVision® Capture and PaperVision® Forms Magic, I can put a stack of documents into the scanner, push a button and walk away for an hour. I can do something else while the documents are processed, so it allowed me to get back to the job that I really need to do.” -Stefanie Evans, GPC Contracting

“PaperVision® Capture turns data into actionable information, by extracting data from both paper and electronic documents and delivering the information to where it's needed.”

-Jamie Bsales, Director of Solutions and Security Analysis, Buyer's Laboratory
