

Surgery Center Cedar Rapids Maximizes Efficiency with ECMNOW!

Before implementing PaperVision® Enterprise throughout their medical records department, Surgery Center Cedar Rapids had to send records away for scanning. Now that they scan all medical records with their Panasonic scanner and manage them with ECMNOW!, they have increased efficiency by cutting their retrieval time, gained control by storing their records electronically, and saved money on archiving, scanning, and storage fees.

- Cut record scanning time **from 7 days down to 30 seconds**, and records are now **available instantly**
- **Protect 100% of private health information** (PHI); HIPAA audits are a breeze
- Eliminating records storage frees space for **new offices and growth**
- Were ready to begin scanning, retrieving, and archiving **immediately after training**

EFFICIENCY **NOW**

MONEY **NOW**

CONTROL **NOW**

Implementation provided by Imagetek. Contact them at www.imagetek-inc.com or at 1.800.422.1330.

“Now that we have PaperVision Enterprise, audits are much smoother. Medical records are easier to find now that everything is at our fingertips. Our Panasonic scanner is easy to use and makes storing our records much simpler.”

-Rachel Lucas, Collections Specialist/Medical Records
