

The Automation Market is Growing, Are You Missing Out?

Businesses today are struggling to control their data as the amount of information they need to manage grows rapidly. **IDC forecasts the global datasphere will exceed 175 zettabytes (a trillion gigabytes) by 2025.** Process automation helps businesses simplify and streamline business processes throughout any organization, to better control data growth.

Data is Rapidly Growing out of Control!

79% of organizations believe that automation improves business processes.
- AIIM, 2017

The ECM Market will be worth \$93.8 billion by 2025.
-Grandview Research, 2018.

Why Are Customers Looking for Data Automation?

Enable Compliance

Automation enables organizations to securely manage and track data and business information in compliance with regulations.

Reduce Costs

Automation improves accuracy of data, speed of processes, and enables better decision making, all of which save organizations money.

Increase Productivity

Automation streamlines business processes by automatically routing data through workflows, increasing employee productivity.

Improve Data Accuracy

Automation eliminates human error by automatically extracting key information, so that business data is always correct.

Meet Customer Automation Needs With The PaperVision® Product Suite:

PaperVision® Enterprise WorkFlow

Routes documents automatically through workflows, tracks their progress, and alerts users of new work assignments.

PaperVision® Forms Magic™

Improves data accuracy by using AI to extract key information from documents and integrates data with other line-of business-applications.

PaperVision® Automation Tools

Simplifies your processes by enabling sharing of information between applications and using "bots" to automatically perform tasks previously done by humans.

How Can You Grow Your Business By Offering Automation?

Digitech Systems products are easy to sell since they offer a comprehensive product suite with exceptional process automation capabilities. We are able to solve unique buyer needs, enabling us to build and sustain a profitable business.

-Casey McClellan, President, CASO
