

Any Document. Anywhere. Anytime.® Brief

When you choose the right system to help manage your business information, you shouldn't have to compromise efficiency, control, or money. Why choose an information management system that overhauls the way you manage business? Instead, find a system that will flex to fit your unique business information processes and goals. A system with an Any Document, Anywhere, Anytime foundation is the key to achieving seamless information management.

Any Document.

- Implement sensible file compression to maximize storage space for over 250 file types, so you can store more files in their native applications, and quickly recall information
- Customize project and process setup to adapt to the user's environment, minimizing change resistance and training time

Anywhere.

- Manage files intelligently and access them wherever you are, from virtually any device
- Enable process automation to enhance an organization's ability to deliver information at the point of need, whether to complete a process step or to inform a critical decision

Anytime.

- Efficiently complete a task and move documents throughout a process, regardless of the time of day
- Guarantee 99.9% uptime, so you can ensure secure and productive accessibility to business information

Forbes

"For a typical fortune 1,000 company, just a 10% increase in data accessibility will result in more than \$65 million additional net income."

- Forbes, 2015

What Problems Can Any Document. Anywhere. Anytime.® Solve?

In a world of information chaos and trending process automation, PaperVision software and services offer an easy, affordable, and custom information management solution to businesses of all sizes. Build your business on the any document, anywhere, anytime foundation to excel productivity, better inform decisions, and improve your profitability.

Simplify File Storage

Are your documents scattered on paper and on your desktop? Consistency is key when managing business information, and having any document, anywhere, anytime allows you to secure files in one place, keeping them in their native format. With custom indexes and automated capture capabilities, any document, anywhere, anytime solutions, like PaperVision®, simplify file storage for any business.

Advance Business Information Security

How important is secure document accessibility for your organization? An any document, anywhere, anytime foundation guarantees 99.9% uptime to your staff. With business process automation delivering information the moment it's ready, you can achieve any goal, day or night, and track document progress through each workstep.

Streamline Document Processes

Are you wasting time with manual document processes around the office? An any document, anywhere, anytime foundation enables process automation so you can streamline your business information lifecycle and speed up review/approval processes. Meeting deadlines and making timely business decisions will be stress-free, so you and your team can focus on big-picture goals and strategy.

Improve Employee Productivity

Did you know that more than 60% of employees work before/after standard business hours? In addition, more employees today are working offsite, flying overseas, or working from home. Impose no boundaries on your employees' choice of time and place to work, and watch their productivity and job satisfaction blossom any document, anywhere, anytime. .

Amherst Label saved \$269,520 in four years since implementation. "The PaperVision® product suite added to how we run our business processes, making things smoother, quicker, and allowing secure access to information whenever we need it."

- Nye Horner, VP Sales and Marketing, Amherst Label
