# You Can't Automate If You Can't Capture

DIGITECH SYSTEMS

Intelligent Capture?

The process of scanning paper to collect and manage digital information in an organized way

75% of organizations see information chaos as a major problem.
-AIIM

79% of organizations realize that they must transform into a true digital business in order to survive.
-AIIM

85% of enterprises will have a cloud-first principle by 2025.
-Business Insider

PaperVision® Capture has the intelligent capablilities to help any business capture and digitize their information to enable process automation.

PaperVision Capture:

- Helps eliminate hand-keyed data
- Digitizes any type of paper document
- Indexes information in the cloud

"Using PaperVision Capture and PaperVision® Forms Magic, I can put a stack of documents into the scanner, push a button and walk away for an hour. I can do something else while the documents are processed, so it allowed me to get back to the job that I really need to do."

- Stefanie Evans
GPC Contracting

GPC CONTRACTING

Using PaperVision Capture, Stefanie was able to:

- Save 624 hours of time per year, at an approximate value of $7,500
- Reduce business costs by going digital, saving $33,800 annually
- Improve connectivity and reduce travel time by 9 hours per week

Start your business processes off right with PaperVision Capture, and automation benefits will follow.
