# Free Up Resources for the Classroom

Is records management taking away from education services?

20% to 40% of current teacher hours are spent on activities that could be automated.

- McKinsey and Company

77% of schools say they are still mostly reliant on paper.

- AIIM

Save Time and Money with Automation and Digital Records

• Gain searchable, anytime access to student records
• Save with artificial intelligence-assisted office automation
• Safeguard archived records from disaster and theft
• Comply with government and education regulations

Learn how clients just like you…

• Saved $111,000 annually
• Achieved 100% regulatory compliance
• Cut records search time to seconds
• Improved staff productivity by 20%

A Smarter Way to Manage Records

Gain fast access to student, staff and school board records...anytime, anywhere.

- Locate any document in seconds with digital records storage and keyword search.
- Import records into school management software with easy system integration.
- Share records instantly via email, automated routing, and electronic delivery.

Save time and money by automating student records and business tasks.

- Gain efficiency using AI-assisted data extraction and robotic process automation (RPA).
- Eliminate manual data entry and filing by automating repetitive office processes.
- Cut spending on document handling by managing and routing records digitally.

Comply with Federal Educational Rights and Privacy Act (FERPA) regulations.

- Avoid costly fines and lawsuits by safeguarding records with advanced data security.
- Disaster proof records by saving backup copies in multiple data centers.
- Manage document lifecycles with automated retention and destruction rules.

> *"We have improved employee productivity and saved space without burdening our IT staff. We have become a model district in the region and other districts frequently visit to see the ImageSilo® system. ...The system more than pays for itself."*
>
> - Sandra McClure, Director of Finance, Adams County School District
